

## Take a closer look at the Dräger Fabius GS premium

The Dräger Fabius GS premium now combines solid design and modular architecture with a wide range of ventilation capabilities that cover most operating room applications, providing exceptional performance, value and flexibility. Combining time-tested design concepts with the comfort and utility of modern digital technology, it's an anesthesia workstation that is simple to use, highly efficient and ready for the future.

An array of options lets you expand the capabilities of the Fabius GS premium even further to create the workstation you need, letting you make the most of your investment.

### Performance Features:

- High-contrast color monitor with Dräger user interface for easy and familiar operation
- All major ventilation modes
- New, highly maneuverable trolley with a central brake
- Integrated LED workplace illumination
- Solid, spacious design with large drawers
- Industry standard rails for additional Dräger and third party equipment
- CLIC absorber compatible

### » HIGH-PERFORMANCE VENTILATION

- Powerful and accurate E-vent piston ventilator which requires no drive gas and delivers ICU-like ventilation performance.
- Dynamic compliance compensation, fresh gas decoupling and backup ventilation for PS modes let you ventilate with enhanced safety, confidence and control.
- High-precision ventilator, compact breathing system design and warmer, the Fabius GS is an excellent choice for true low flow ventilation.
